

Avinash Valavoju

Hyderabad, India

avinashvalavoju@gmail.com | linkedin.com/in/avinash-valavoju

Objective

B.Tech CSE (AI & ML) student passionate about Software Engineering, Artificial Intelligence, and scalable application development. Skilled in Python, Java, Flask, and Machine Learning with strong problem-solving and software development abilities.

Education

MLR Institute of Technology, Hyderabad	2023–2027
B.Tech in Computer Science and Engineering (AI & ML)	CGPA: 8.82/10

Experience

Technical Intern	Jun 2024 – Jan 2026
------------------	---------------------

Centre for Innovation & Entrepreneurship, MLR Institute of Technology

- Mentored 100+ students in technical micro-projects and guided project development.
- Coordinated institutional events and collaborated with cross-functional teams.
- Improved team execution and delivery efficiency through structured project management.

Projects

Neuro-Optho AI Python, Deep Learning, React, Flask	2025
--	------

- Built a multimodal AI system combining retinal fundus images and brain MRI.
- Developed deep learning models and extracted retinal biomarkers.
- Applied multimodal fusion for cognitive risk assessment.
- Integrated Grad-CAM explainability and deployed using React + Flask.

AI CAD Optimiser Python, Machine Learning	2024
---	------

- Designed an AI-based system to optimize engineering workflows.
- Improved automation efficiency using machine learning techniques.

CareerPilot AI React.js, FastAPI, Python, NLP	2024
---	------

- Developed an AI-powered platform to analyze resumes and generate ATS-based career insights.
- Implemented NLP techniques for skill extraction, gap analysis, and personalized roadmap recommendations.
- Built and deployed a full-stack application using React.js and FastAPI on Vercel and Render.

MediLink Node.js, SQL	2023
-------------------------	------

- Developed a full-stack platform for document management and sharing.
- Built REST APIs and designed relational database schemas using SQL.

Technical Skills

Languages: Java, Python, SQL

Web: Node.js, Flask, HTML/CSS

Concepts: Data Structures, OOP, DBMS

Tools: GitHub, VS Code, Linux

Achievements

- Finalist at IASF International Conference, Hyderabad.
- Recognized as a Mentor for guiding student technical projects.

Certifications

- Python Programming – Microsoft
- Cybersecurity Analyst Simulation – TCS
- ChatGPT Expert – Be10X
